

Year 9 Scholarships and Awards

Overview

King's Ely believes that it has a duty to ensure the continuation of excellence in the school by the designation of awards to talented pupils. Such awards are restricted to a maximum of up to 10% of the day tuition fee and are subject to satisfactory performance and behaviour, reviewed on an annual basis and at the end of Year 11.

Award holders whose families are unable to meet the remaining fees may apply for bursary support. We advise that pupils should apply for a maximum of two scholarships/awards.

We are delighted to receive applications from pupils for the following:

- STEM (Science, Technology, Engineering, Maths)
- Academic (Maths, English and Persuasive Writing)
- Music
- Sport
- Drama
- Art

The combined value of any two scholarships cannot exceed 10% of the day tuition fee. Occasionally the parent(s) of a pupil who has been selected for a scholarship is willing to surrender all or part of the emoluments for the benefit of another pupil who needs assistance. In such a case the student retains the title and privileges of a scholar. The school particularly appreciates gestures of this kind.
