Fees in Advance

Our Fees in Advance (FIA) scheme offers a fixed credit applied against future school fees, in return for a lump sum payment. A discount is available for these deposits as illustrated above. The discount is calculated using a financial discount rate of 1.2%.

The scheme is available for a minimum of one year in advance and generally a maximum of three years (for more than three years we would consult internally before formally agreeing any arrangement).

The calculation for the future fees discount builds in an assumed school fee increase of 3.5% year on year; any actual change in school fees will be published on an annual basis.

The above tables illustrate the discount offered for the academic year 2019-20, commencing September 2019. Payment is required to be made before the start of the academic year. If a child leaves the School for any reason prior to the end of the agreement the unused proportion will be refunded, the usual notice period applies. A full quote including the Terms and Conditions will be given on request.

The scheme is for school fees, and unless funded appropriately, is not generally used for any extra charges (these would need to be paid on a termly basis as per any invoice issued prior to the start of each term).

Please contact the School Accountant for further details of the FIA Scheme (michaelspencer@kingsely.org).
