Introduction

The Health & Safety (First Aid) Regulations 1981 set out the essential aspects of first aid that employers have to address. Employers have a legal duty to make arrangements to ensure their employees receive immediate attention if they are injured or taken ill at work. Employers must inform employees of the first aid provisions such as equipment and facilities, which are adequate and appropriate and nominate suitable persons who will be responsible for first aid equipment. Where an employer provides first aiders in the workplace, they should have a valid certificate of competence in either emergency first aid at work or better.

The **'nominated person(s)'** should also take charge of the situation if a serious injury or major illness occurs. This should not interrupt any actions of a first aider that may be needed on the scene of an accident (e.g. calling an ambulance)

Aims of policy

The aim of this policy is to ensure that adequate first aid arrangements are in place at the school and to ensure that staff, students, contractors and visitors are suitably cared for in the event of injury or ill health

To ensure that all staff and pupils are aware of the procedures in the event of any illness, accident or injury.

To ensure that first aid provision is always available while people are on School premises and while on School visits.

Definition

First Aid is the means of treating minor injuries and illness or treatment given to a casualty for any injury or sudden illness before the arrival of an ambulance or qualified medical expert.

Responsible/Nominated person(s)

King's Ely 'nominated persons' for first aid provisions are the Medical Centre Nurses, Chief Operating Officer and Health and Safety Coordinator. The Medical Centre nurses are responsible for supplying first aid materials. The Chief Operating Officer and Health and Safety Coordinator are responsible for the management of first aid including training and information. In case of an incident requiring medical attention the on-scene first aider is to take charge of the situation (e.g. call an ambulance, inform nominated person).

Action to be taken in the event of injury,

1. If the injured person is able to walk to the Medical Centre, then they should be escorted there for medical assessment and treatment, the duty nurse will decide what further action is necessary. An accident report will be completed by the person who witnesses the injury
2. If the injured person is not breathing, unconscious, immobile, has significant head, neck or back injury, they must not be moved, and an ambulance is to be called (999). Administration Office and Medical Centre must be informed. The accident book must be completed by the supervising adult and passed to the Health and Safety Co-coordinator.
3. In the event of an ambulance being called to the school, the 'Emergency Ambulance' group email must be sent stating the following: Name of pupil/staff involved, location of emergency and if the Medical Centre has been informed and/or in attendance. This message is sent to the Principal, Chief Operating Officer, Vice-Principal-Pastoral, Heads of Section, Health & Safety coordinator and relevant Medical Centre staff.
4. First Aiders are listed in the Almanack and The Health and Safety Coordinator maintains an up-to-date record of all first aiders that are qualified and who cover all areas of King's Ely, this is available on request.

First Aid Arrangements

First Aid Posters

First Aid posters are displayed throughout the school and communicate in specific areas what to do in an emergency, a list of first aiders in that area, the location of the nearest first aid box and emergency contact numbers.

First Aid Kits

The School's Medical Centre Nurses are responsible for the ordering and supplying of first aid materials and medications. It is the responsibility of the First Aider to notify the Medical Centre when the first aid kits in their area need to be restocked after use and replenished when items pass the expiry date.

Sufficient quantities of basic first aid equipment must always be available and must include:

BASIC FIRST AID KIT

First Aid guidance leaflet
Plastic tweezers
Yellow clinical bag
6 pairs of disposable gloves
4 triangular bandages
Foil blanket
Resus Aid
2-4 packs gauze swabs
10 medical wipes
4 saline pods
20 assorted wash proof plasters
6 safety pins
1 pair single use scissors
2 x Burn blott sachets
1-2 disposable ice packs
Micropore tape and dressing pads

Dressings

1 large wound pad with bandage (ambulance dressing)
2 medium wound pads with bandage (ambulance dressing)
2 eye pads with bandage
2-4 Adhesive dressings (Mepore)

The first aid box must be located where all staff have access to it and not locked in an office or cabinet. The location of the first aid kit will be displayed on first aid posters placed around the school.

More high-risk areas of the school will have specific first aid kits available e.g. science laboratories, sporting activities and Catering department (including burn kit and eye station)

First aid boxes for all off site activities are available in the Medical Centre and must be requested in advance.

All school vehicles have easily accessible on board first aid kits

The Medical Centre

King's Ely Medical Centre is located at the Bishop Woodford house. The Medical Centre is open between 7.30 - 18.00 Monday to Friday and 10.00-17.30 Saturday and Sunday and is staffed by three Registered General Nurses

and one Medical Centre Assistant. Outside of these hours there is an on-call system staffed by the nurses. The out of hours GP Service (111) or 999 is used when necessary.

The Medical Centre is contactable on: -

External: 01353 662225

Internal: 3501/3523

A Minor Injury's Unit is located at the Princess of Wales Hospital in Ely and is open 7 days a week 8.30 -18.00 (No X-rays at weekends or after 4.30)

Phone: 01353 656675

In the event of a major injury/emergency, 999 must be called and the ambulance service requested.

In the event of a minor injury, the casualty is to be taken to the Medical Centre where the injury can be assessed, and a decision made about further treatment/assessment as appropriate.

The Medical Centre will treat minor injuries/illnesses. The Medical Centre or the responsible first aider will inform parents and Hsms about accidents/illness/treatment.

Staff may visit the Medical Centre as and when necessary, in term time, to access the above services as appropriate.

Procedure in the event of an accident or injury

If an accident occurs, the member of staff in charge will assess the situation and decide on the next course of action. First Aiders are to be called for, if necessary. However minor the injury, the Medical Centre must always be informed to ensure medical records are maintained.

Ambulances: If an ambulance is called, the Administration Office should be informed, and they will make arrangements for the ambulance to have access to the accident site. Pupils will be accompanied in the ambulance, or followed to hospital, by a member of staff if the parents cannot be contacted in time.

In the event of an ambulance being called to the school, the 'Emergency Ambulance' group email must be sent stating the following: Name of pupil/staff involved, location of emergency and if the Medical Centre has been informed and/or in attendance. This message is sent to the Principal, Chief Operating Officer, Heads of Section, KES Deputy Head, Health & Safety Coordinator, Reception and relevant Medical Centre staff.

Parents will be informed by the first aider as soon as possible. The Medical Centre and Administration Office can be contacted to assist with contact with parents.

Procedure in the event of off-site accident, injury or illness

The Medical Centre will provide a first aid kit and relevant medication and a mobile phone will be provided by school main reception. (Staff receive appropriate training prior to taking responsibility for medications). The kits and mobile phone should be carried by all teachers in charge of teams/trips when going away from the school site. A medical and allergy list will be included in all school trip first aid kits. Any treatment or incident should be recorded. The drug administration and accident forms should be handed back to the Medical Centre promptly on return from the trip. The trip leader is responsible for the safe storage of medication and handing this back to the Medical Centre.

Leaders of school trips must ensure that first aid provision is appropriate to the activities and group concerned. A member of staff should be appointed as 'the person in charge of the first aid'. This includes keeping a written record of treatment etc.

Informing parents about any injuries/illness should be carried out by the staff member in charge of the trip in consultation with the Section Head.

For School trips/tours/overnight stops a more comprehensive first aid kit will be provided. The provision for first aid should be part of the risk assessment. Party leaders will research carefully provision for First Aid, visits to doctors and hospitals in the area. A medical consent form will be sent out by the party leader to be signed by parents. Any problems should be discussed with parents and medical staff before departure.

Injuries or illnesses on a school trip will be monitored by the member of staff in charge of first aid and the party leader. A written record of treatment and relevant information must be kept. The party leader will inform the school contact of any problems and a decision made about who will contact parents. The Principal should be kept fully informed of any problems that involve contacting parents. If the Principal/Section Head is not available, contact the Deputy Head or Chief Operating Officer.

Administration of Emergency Salbutamol Inhalers in School

From October 1, 2014 the Human Medicines regulations will allow schools to keep a Salbutamol inhaler for use in emergencies. The aim of this change is to deliver emergency Salbutamol, via a spacer, by designated members of staff to a pupil or member of staff with a known diagnosis of asthma who is having an asthma attack. Please see the 'Emergency Salbutamol Inhalers in Schools' protocol.

Administration of Emergency Adrenaline in School

From 1 October 2017 the Human Medicines (Amendment) Regulations 2017 will allow schools to obtain, without a prescription, adrenaline auto-injector (AAI) devices, if they wish, for use in emergencies. This will be for any pupil who holds both medical authorisation and parental consent for an AAI to be administered. The AAI(s) can be used if the pupil's own prescribed AAI(s) are not immediately available (for example, because they are broken, out-of-date, have misfired or been wrongly administered). Please see 'Non-Prescribed AAIs in Schools Protocol'.

Arrangements for Pupils with Specific Medical Conditions

The School recognises that as part of its duty of care, it is required to make appropriate arrangements for pupils with particular medical conditions. The School's GP, Medical Centre Nursing team and the Welfare Officer are involved in such arrangements as appropriate. The School has Policies on Asthma, Epilepsy, Diabetes, Anaphylaxis, Pandemic, HIV and Eating Disorders as well as a Management of Vomiting and Diarrhoea Protocol. The School also has a Policy on the Administration of Medication. These policies, protocols and guidance documents can be found within the Medical Centre Procedures on firefly <http://firefly.kings-ely.cambs.sch.uk/staff-admin-1/policies#>. Training on anaphylaxis and asthma is available annually for all members of staff and training on administration of medications is a mandatory requirement for certain members of staff as appropriate will be provided by the Medical Centre team. Parents/guardians are responsible for informing the Medical Centre of pupils' medical conditions on the Medical Questionnaire Paper and updated whenever appropriate.

Accident Reporting

- All accidents must be recorded in the school accident book/s or at the Medical Centre.
- In the event of death or specified major injury, the Academic Heads of Departments or the Support Staff Managers must immediately notify The Principal and the Chief Operating Officer.
- In the case of minor injuries, it is the responsibility of each employee to complete an accident report if they or one of their staff or pupils were involved in an incident at the school.
- Where an accident involves anyone other than King's Ely staff, the Health and Safety Co-ordinator is responsible for completing the accident report.

Legal Obligations

Reporting accidents and ill-health at work is a legal requirement. We have legal obligations under the “Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013” (RIDDOR 13).

RIDDOR 13 requires the reporting of work-related accidents, diseases and dangerous occurrences. It applies to all work activities, but not to all incidents.

What action is required?

Death or major injury

If there is an accident connected with work and:

- One of our employees or a self-employed person working on our premises is killed or suffers a major injury (including as a result of physical violence);
- A member of the public is killed or taken to hospital;

We must notify the enforcing authority immediately (by telephone) even at weekends. They will ask for brief details about the business, the injured person and the accident; and within ten days, we must follow this up with a completed accident report form (F2508). If not fatality, then contact the Centre on the next available working day

Definitions of major injuries are given later.

Accidents can now be reported via a central reporting centre:

Telephone	0845 300 9923 (Available 0830 to 1700 Mon to Fri)
Fax	0845 300 9924
Email	riddor@natbrit.com
Internet	www.riddor.gov.uk
Postal address: Incident Contact Centre, Caerphilly Business Park, Caerphilly, CF83 3GG	

Over-Seven-day Injury

If there is an accident connected with work (including an act of physical violence) and your employee, or a self-employed person working on your premises, suffers an over-seven-day injury you must send a completed accident report form (F2508) to the enforcing authority within fifteen days. An over-seven-day injury is one which is not major but results in the injured person being away from work or unable to do their normal work for more than seven days (including non-workdays).

Disease

If a doctor notifies you that your employee suffers from a reportable work-related disease, then you must send a completed disease report form (F2508A) to the enforcing authority. A summary of the reportable diseases is given provided in accident reporting procedure. Under RIDDOR Regulations the reporting of COVID 19 is required when transmission is attributed to a workplace exposure

Person responsible

It is the responsibility of the Chief Operating Officer or in his absence the Health and Safety Co-ordinator to carry out the necessary notification immediately, then to complete the RIDDOR form and send to the enforcing authority within the specified time of the injury.

The **Principal** should be notified immediately of all major accidents.

Parents will be informed of all serious or significant injuries, accidents or illnesses involving their child as soon as possible.

Accident Book

The accident book is compliant with the Data Protection legislation. Accident books are held at KEA, KEJ, Medical Centre, Administration Office, Catering Department, Domestic Manager's Office and OP Reception

In the event of an accident, a record should be made in the accident book. The accident book is completed by staff at the scene of the accident if witnessed. When injuries are treated in the Medical Centre, the Nurses record their assessment of the injured/unwell pupil/staff in the medical area of iSAMS or the staff injury/illness log.

Reporting to Parents:

Parents will be informed of all serious or significant injuries, accidents or illnesses involving their child as soon as possible.

Training

Key members of support and academic staff receive the one-day emergency first aid training (and refresher training) to enable them to better fulfill this responsibility. Certain members of staff, (house matrons and Ely Scheme senior instructors) agreed by the Chief Operating Officer, will receive a 3 day 'First Aid at Work' certificate or 2 day 'Outdoor First Aid' certificate which is relevant to their specific area of work.

The Health and Safety Coordinator maintains an up-to-date record of qualified first aiders and ensures that staff requalify every 3 years,

Sports teachers and coaches will be trained as emergency first aiders to enable them to deal with common accidents related to sporting activities these include:

- asthma
- bleeding
- bone, muscle and joint injury
- burns and scalds
- chest pain
- choking
- communication and casualty care
- emergencies in public
- head injury
- extremes of heat and cold
- primary survey
- resuscitation
- the role of the first aider
- sprains and strains
- the unconscious casualty

King's Ely Acremont House/Nursery staff will be trained in an OFSTED approved early year's first aid enabling them to deal with specific details related to young children.

In addition to this, the Medical Centre provides annual training on administration of medication, asthma and anaphylaxis for staff who work in the boarding houses and staff who will be looking after pupils on school trips.

Special Precautions

First Aid Provision for Lone or remote working

Where employees work alone or in remote areas, King’s Ely will provide mobile phones, all vehicles have first aid kits and risk assessments will be completed. Further Guidance is available in the lone worker policy.

Infection Control

In any situation requiring first aid, certain precautions need to be taken to reduce the risk of transmitting infections, including hepatitis. These standard precautions will be equally effective against the HIV virus. For example, first-aiders should always cover any exposed cuts or abrasions they may have with a waterproof dressing before treating a casualty whether any infection is suspected. First aiders must wear gloves before attending the casualty and should also wash their hands. They should also wash their hands both before and after applying dressings. A sharps box is kept in the Medical Centre. The school’s sharps policy is available on the intranet for further information. Whenever blood, semen or other bodily fluids must be cleaned up, the guidelines for dealing hygienically and safely with spillages of body fluids must be followed and bodily fluids clean up kits should be used.

Bodily fluids clean up kits are provided for all boarding houses, Medical Centre, KEA, KEAN, KEJ, Administration Office, Catering, Hayward Theatre, Old Hereward, Cherry Hill Classrooms, and Old Palace.

Guidelines for dealing hygienically and safely with spillages of body fluids

Method

1. Display Cleaning in Progress/Wet Floor sign to prevent accidental contact with the spillage
2. Put on disposable gloves and apron
3. Liberally sprinkle absorbent powder over the spill and allow time for any liquid to be absorbed
4. Using the disposable scoop and scraper, clear away the spillage into a yellow clinical waste bag. Dispose of the scoop and scraper into the bag after use
5. Spray the area with disinfectant allowing contact time
6. Wipe the area clean with disposable paper towels
7. Place any soiled bedding or clothing into a dissolvable laundry bag and take to the school laundry for washing
8. Place the used paper towels, gloves and apron into the yellow clinical waste bag
9. Ensure you wash your hands with antibacterial soap and warm water
10. Whilst cleaning, if any bodily fluids come in to contact with your eyes, nose, mouth or an open wound, wash/irrigate the area with antibacterial soap and water
11. Take the clinical waste bag to the Medical Centre for safe disposal
12. Contact the Main Reception 01353 660700 during office hours or reception@kingsely.org so they are able to inform the Domestic team to arrange a deep clean of the area

8. Boat House

Appendix Two: EYFS First Aid

Staff members may administer prescribed medicines after completing the relevant training from the Medical Centre. It is the advice of the School Medical Officer that medicines required three times a day should usually be given before and after school and at bedtime. However, if this is not possible, especially with our youngest children who attend nursery from 8am until 6pm, then they may be given by trained staff members, at the parent's request, *only* when the medicine permission form has been completed and signed. This also applies to other prescribed medicines. Medicines required, may need to be stored in the fridge in the school office. The member of staff administering the medicine will check the dosage and expiry date before it is administered and complete and sign the medicines administered form. Parents will be informed that the medicine has been administered on the same day or as soon as reasonably practical.

Only prescribed medicines will usually be administered. The exception to this is when a child has a fever, and parents are unable to collect quickly. Parents will be asked to email their permission to administer Calpol or the equivalent. Also, a child who has a history of febrile convulsions may be given paracetamol at the onset of a fever with the parent's consent and then the parents must collect the child as soon as possible.

KEA medical questionnaire now includes a third emergency contact for when parents/guardians are outside of the local area.

Asthma inhalers and emergency anti-allergy treatments, which are prescribed for the child and provided by the parents may be administered by trained staff members only, and will be kept in named container out of reach of the children. The expiry date of stored medicines will be checked regularly. If these are administered, a written record is kept, and parents are informed that day or as soon as reasonably practicable.

All EYFS staff are paediatric first aid trained, ensuring that trained staff are always on site and always on outings.

Administration of Emergency Salbutamol Inhalers in School

From October 1, 2014 the Human Medicines regulations has allowed schools to keep a Salbutamol inhaler for use in emergencies. The aim of this change is to deliver emergency Salbutamol, via a spacer, by designated and trained members of staff to a pupil with a known diagnosis of asthma who is having an asthma attack and who has written consent from parents. Please see the 'Emergency Salbutamol Inhalers in Schools' protocol.

EYFS staff are all trained in the use of this inhaler, which is checked each month by designated staff. An inhaler is kept in the Yellow room in Nursery, and in the school office at KEA.

Administration of Emergency Adrenaline in School

From 1 October 2017 the Human Medicines (Amendment) Regulations 2017 will allow schools to obtain, without a prescription, adrenaline auto-injector (AAI) devices, if they wish, for use in emergencies. This will be for any pupil who holds both medical authorisation and parental consent for an AAI to be administered. The AAI(s) can be used if the pupil's own prescribed AAI(s) are not immediately available (for example, because they are broken, out-of-date, have misfired or been wrongly administered). Please see 'Non-Prescribed AAIs in Schools Protocol'.

Parents are told via the Parents' Information Document and regularly reminded via newsletters and verbally to keep children out of school for 48 hours after any occurrence of vomiting or diarrhoea. School must be informed if a child has a notifiable infection/ disease. Parents are provided with a copy of 'A Guide to Childhood Illnesses' booklet.

Accidents are recorded and parents are informed on that day, or earlier if necessary, of the nature of the accident and of any first aid administered.

First aid boxes are always available within all the EYFS areas and contain appropriate contents for use with children.

Child Protection Agencies and Ofsted will be notified in the event of a serious accident or injury to or the death of any child whilst in our care.
